

# OEM Integration Made Simple

## Lexus and Autosoft DMS

Lexus

Lexus has approved Autosoft's DMS for integration with its Dealer Daily communications system. **Improve operational efficiencies with significant time savings and error reductions.**

### F&I/Sales Integrations

- ▶▶ **Retail Delivery Reporting (RDR) and Credit Contract Updates:** Autosoft DMS automatically transmits RDR messages to Lexus. When you sell GAP, Life, A&H, or EWU (Wear Care, Smart Lease Protection, or Environmental Protection) on any deal, a credit contract is automatically submitted with the RDR.
- ▶▶ **Customer Updates:** Autosoft DMS sends notifications to Lexus whenever you add or edit customer information.

### Accounting Integrations

- ▶▶ **Vehicle Inventory Adjustments:** Lexus sends daily inventory adjustments to Autosoft DMS for both new and used vehicles, and your DMS sends updates to Lexus as changes are made to vehicle records, including when a stock number is assigned to a VIN for a new vehicle or information is updated for used vehicles.
- ▶▶ **Financial Statements:** Autosoft DMS enables you to generate a monthly financial statement to be transmitted directly to Lexus.

### Parts Integrations

- ▶▶ **Parts Inventory:** Autosoft DMS sends daily and monthly parts inventory updates to Lexus, which includes a full report of the entire parts inventory.
- ▶▶ **Parts Master:** Autosoft DMS will automatically load the Parts Master received from Lexus, making the information readily available in your DMS to ensure you have accurate parts data.
- ▶▶ **Parts Order, Parts Shipper, and Parts Return:** You can submit parts orders generated in Autosoft DMS directly to Lexus. You can also view shipper data for the parts orders and submit parts returns, helping the Parts Department more effectively manage its inventory.
- ▶▶ **Dealer Stocking Guide and Automatic Stock Replenishment:** Lexus provides dealer stocking guides (DSG) twice a year to help you meet the required stocking levels for certain parts and ensure high availability and service levels. Based on these guides and your inventory, Lexus will provide automatic stock return files for processing.

### Service Integrations

- ▶▶ **Repair Orders (RO) and Special Service Campaigns:** While scheduling an appointment or creating an RO, you'll receive notifications of special service campaigns. You can then pull open service campaigns to the RO, and Autosoft DMS will write the repair. The RO is transmitted directly to Lexus when it is closed.
- ▶▶ **Op Code Labor Guide:** Operation code data provided by Lexus is loaded into Autosoft DMS to ensure that you are able to pull the appropriate op code data on repair orders to increase efficiency when processing warranty repairs.
- ▶▶ **National Service History:** View customer information, vehicle details, ROs, service agreements, and special service campaign information for a customer or vehicle right in Autosoft DMS.

“ This integration between Lexus and its dealers is part of our continued commitment to bring innovative technologies to market that help our customers work more effectively. ”

– Bryce Veon, President & CEO, Autosoft
