

Track customers, route leads, desk deals, and flow it directly into your F&I department, all within one platform. Closing profitable deals just got a whole lot easier.

Desking

Expedite deals without compromising value

- Impress customers by easily referencing past purchase history, photos, preferences, and detailed notes
- Locate, cost out, and apply a unit to a deal in seconds from any device
- Share vehicle history reports with customers from anywhere on the lot
- Provide quotes more efficiently by quickly determining if a vehicle has open ROs, cost-of-sale adjustments, and recap functionality

F&I

Prioritize customer experience with seamless applications and financing

- Deal figures roll automatically; you never have to re-key data to get the deal done
- Accurately load and print all forms for fewer funding delays and fewer customers needing to re-sign
- OFAC, Red Flag, Privacy Notice, Risk-Based Pricing, and Adverse Action are all documented to keep you audit-safe
- · Menus can be customized and updated with optimal products and pricing

Dashboards

Eliminate surprises. Track key performance indicators for each department, avoiding risk and uncovering new opportunities.

"We've been able to knock about 45 minutes off the average car deal, which is huge. Customers are way happier because they spend less time here."
